

Testimonials

From founding CAH members

Connected-at-Home enables us to fulfill our dream of living the rest of our lives in our own home. We no longer worry about having our needs met when the weather turns bad or one of us is ill. Most of all these beautiful people who are helping us not only possess skill and common sense but also shower us with kindness and loving care. We feel truly blessed.

T&BE South Pomfret, Vermont

and from their family

We live in California across the country from my parents in Vermont and we are confident that Connected-at-Home gives excellent attention to my parents enabling them to live independently in their own house. Liza and the Connected-at-Home Personal Assistants are dedicated to ensuring that Mom and Dad feel secure, comfortable and able to enjoy all the delights of living in Vermont.

I cannot say enough great things about the Connected-at-Home service.
